WELCOME NOTE

The Texel remains the UK's leading terminal sire breed, delivering consistent performance across commercial sheep systems from the north of Scotland, through Northern Ireland and Wales, to the south coast of England.

Continual investment in data collection, genotyping and routine genomic evaluations has transformed the accuracy of the Society's genetic improvement tools. Combined with the publication of breeding information on iTexel.uk and within Society sale catalogues, buyers have access to more reliable information than ever before, enabling confident, evidence-based breeding decisions.

The breed continues to make significant genetic progress through profit-focused breeding indexes that identify animals capable of improving growth, carcase quality, efficiency and flock profitability. Whether producing high-performing prime lambs, breeding productive replacement females or driving long-term genetic gain, Texels provide a proven commercial advantage.

In today's challenging farming environment, every breeding decision has lasting consequences. Backed by industry-leading genetic evaluation, transparent data and continual innovation, Texels continue to set the benchmark for commercial performance.

When the goal is a more productive, profitable and sustainable flock, Texel genetics remain the natural choice.

Looking to set up a new pedigree Texel flock membership visit texel.uk/join

Show & Sale Programme

WELSH NATIONAL SHOW & SALE PROGRAMME

Bye Law 11.6

No dressing, trimming, clipping of the fleeces, or eye lashes of sheep will be permitted. No artificial whitening on any part of the sheep is permitted. An inspector may be present at the sale or show, they have the authority to disqualify any sheep, which in their opinion, are below a minimum standard with regard to breed type or are found to be contravening the Society Byelaws, right up to the point of sale. The decision of the inspector shall be final and failure to accept the inspector's decision will result in the entire consignment being rejected.

Friday 21st August

- 12:45 – 13:45 Arrival of sheep and inspection **prior** to penning. Any sheep not inspected by 13:45 will not be eligible to be shown and sold.
- 14.15 Judging of all classes by Geraint Jones, Erw Flock.
Presentation of prizes will take place after each class.
Two entries per class, per vendor and sheep may only be shown in one class (other than the Group of Three).
- Class 1:** Shearling Ewe
Class 2: Open Ram Lamb
Class 3: Group of Three Ram Lambs bred by exhibitor (non-Championship)
- 15.30 Sale of Shearling Ewes followed by Ram Lambs

2025 Winner	N/A

Conditions Of Sale

All sheep will be sold under the Auspices of the Texel Sheep Society and the Conditions of sale relevant to individual sales. These can be viewed at texel.uk/societyrules

SCAN HERE

Auctioneers also display copies of the conditions of sale within the market.

Neck tags supplied by the Society must be worn by all sheep for sale prior to the inspection.

Individual animal ID numbers on ear tags must match the ID number displayed in the sales catalogue and substitute catalogue.

DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on Society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information, therefore, rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the Society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information, therefore, rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available. Whilst every effort is made to ensure accuracy of the information contained in Society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

SCRAPIE MONITORING SCHEME (SMS)

This event will be operated as a 'un-segregated' sale therefore any sheep from SMS flocks will need to meet the SMS rules in regard to ARR/ARR scrapie genotype certification.

Members are reminded that if they bring animals to this event which do not have the certification, they will be unable to return with them without risking their flock health status. This is the responsibility of the members.

AUCTION MART RULES FOR VENDORS

The shepherd in charge must bring their respective lots forward, take them to and from the sale ring, attend until delivered and assist in trucking if required as the auctioneers will be responsible only for what is delivered to the purchaser. Should the shepherd not be in attendance at the time his lots fall to be sold, it will be passed over and taken at the end of sale.

All stock will proceed in the order of the catalogue and all lots not previously entered will be sold only when the list is finished.

All purchases to be settled for and taken delivery of on the day of sale.

No stock can be removed without a pass.

Purchasers should see that their stock is correct before leaving the gates, as no deduction can be made afterwards.

No private sales prior to the Stock being offered by auction will be allowed or recognised by the salesman.

The usual commission must be paid on consignments sold privately within this market.

Every assistance in loading or keeping overnight, for the accommodation only of buyers, will be arranged, as far as possible, by the auctioneers, who will not be responsible for loss or damage incurred thereby

Unlock the Genetic Potential of Your Texels

Genotyping provides the confidence and information today's breeders and buyers rely on, delivering:

- + Verified pedigrees through parentage verification
- + Valuable health information (see table below)
- + More accurate performance figures, particularly in young lambs
- + Greater confidence when selecting future breeding stock
- + Faster genetic progress in commercially important traits
- + Trusted information that adds value for potential buyers

	Scrapie	Microphthalmia	Maedi Visna
Most resistant (desirable)	ARR/ARR	G/G	1,1 4,4 1,4
Genetically resistant, need careful breeding selection	ARR/AHQ ARR/ARH ARR/ARQ	C/G (Carrier)	
Little resistance, need careful breeding selection	AHQ/AHQ AHQ/ARH AHQ/ARQ ARH/ARH ARH/ARQ ARQ/ARQ		
Susceptible, can be used to breed towards more resistance			*1 *4 1,* 4,*
Most susceptible			2,2 3,3 2,3

ET donors (born from 2025-onwards) and males to be registered must be genotyped otherwise their progeny will not be able to be added to iTexel.

All other stock can be genotyped to provide more flock insights. DNA kits can be requested for any animal as soon as it has been added to iTexel.

Scan the QR code to learn more about the Society's genotyping service

SCAN HERE

New Stock Rams

Remember to register your new stock rams before 1st December to benefit from the lower registration fee.

Already genotyped?

- Email registrations@texel.co.uk with your proof of purchase.
- Once confirmed, your ram will be transferred into your flock.

Not yet genotyped?

- Request a DNA kit through the DNA Kit page on iTexel.
- Take the sample and return it to the Society office.

DNA kits can also be collected from and returned to Society staff on sale day.

Inbreeding within the national pedigree Texel flock

Use the Mating Predictor tool on iTexel

Members are strongly encouraged to use the Mating Predictor available on all devices through iTexel to manage levels of inbreeding within their flocks.

Parent inbreeding values are not necessarily an indication of the inbreeding value of their progeny. The Mating Predictor estimates the inbreeding values of lambs produced from a mating of any birth notified or registered ram in iTexel and any ewe in your flock, plus any live registered ewe up to five-years old.

To check the ram(s) you're interested in purchasing and see how they combine with your ewes:

1. Log in to iTexel, click on Mating Predictor
2. Choose 'New Combination' to select sire(s) and ewes
3. Click on 'View Results'
4. A summary will be displayed, the number in brackets is the predicted inbreeding coefficient. A value below 6.25 is desirable

Inbreeding can be defined as the mating of related individuals, or those with shared ancestors. A balance needs to be maintained between selecting animals to optimise rates of genetic gain and minimise levels of inbreeding.

Increasing levels of inbreeding can result in inbreeding depression, where performance can suffer; though it can be argued that any animal is only one mating away from being outbred.

The lower the level of inbreeding the better; the threshold value of 6.25% has been determined to be an acceptable level within a breeding programme. The inbreeding estimate is based on the relatedness of individuals in a pedigree; some examples of inbreeding values for different matings are presented below.

Relationship	Inbreeding coefficient (F)
Father × daughter or mother × son	25.0 %
Brother × sister	25.0 %
Grandfather × granddaughter or grandmother × grandson	12.5 %
Half-brother × half-sister	12.5 %
Uncle × niece or aunt × nephew	12.5 %
Great-grandfather × great-granddaughter or great-grandmother × great-grandson	6.25 %
Half-uncle × niece or half-aunt × nephew	6.25 %
First cousins	6.25 %

TEXEL

GIVING YOU MORE

Texel sales take place at more than 20 markets across the UK.
Scan here to find one near you

High index Texel rams
add more than
£690 to their
slaughter progeny *

Texel-sired lambs
achieve growth rates of
more than 0.5kg/day,
getting to slaughter
weight quicker. ***

Texel lambs regularly
earn up to 20%
premiums over live
market averages. **

More than 85%
of Texel lambs
grade in spec. ****

TEXEL SUMMER *Competition* WIN

PRIZES FROM **Agrii** AND **RAPPA**

**A BESPOKE
10 ACRE FORAGE
IMPROVEMENT
PACKAGE**

FROM **Agrii**

**WORTH OVER
£1200**

OR

**AN EXCLUSIVE
10 ACRE
ELECTRIC
FENCE SYSTEM**

FROM **RAPPA**

ATV not included

**WORTH OVER
£2100**
